STATEMENTS OF BENEFICIAL USE ARE NOT REQUIRED FOR PERMITS ISSUED UNDER C.R.S. 37-90-105 OR 37-92-602.

NOTE: IF THE PERMIT WAS APPROVED PURSUANT TO C.R.S. 37-90-137(4), THEN YOU MUST USE FORM NO. GWS-18 "NOTICE OF WELL COMPLETION" AND FORM NO. GWS-19 "NOTICE OF COMMENCEMENT OF BENEFICIAL USE".

The Statement must be typewritten or printed in **BLACK INK**. Initial and date any changes you make on the form. **INCOMPLETE FORMS ARE NOT ACCEPTABLE AND WILL BE RETURNED. ATTACH ADDITIONAL SHEETS IF MORE SPACE IS NEEDED.**

NO FEE IS REQUIRED IF THE STATEMENT IS SUBMITTED TIMELY. IF NOT SUBMITTED TIMELY, THE PERMIT MAY EXPIRE, AN APPLICATION FOR A NEW PERMIT AND ADDITIONAL FEES MAY BE REQUIRED.

The Well Permit Number must be indicated in the space provided at the top of the form.

1. Print the **well owner's** name and include the mailing address and phone number.
2. If the well location is different than the mailing address of the owner, include the address where the well is located. If the owner has more than one well, provide well name or number as designated by the owner; i.e. North Well. The actual **well location** must include 1/4, 1/4, Range, Township, Section and distances from Section lines. Mark the appropriate boxes for North or South and East or West directions.
3. Describe the **use(s)** to which the water has actually been applied. Permitted uses are described in the conditions of approval of the permit.
4. Enter the **date of first beneficial use UNDER THIS PERMIT**. 5. Enter the **pumping rate** claimed. The rate cannot exceed the permitted maximum rate or the actual pumping rate in gallons per minute **reported on the pump installation and test report**, whichever is less: 449 gallons per minute is equivalent to one cubic foot of water per second.
6. Enter the **annual amount of water diverted** in acre feet. The amount claimed cannot exceed the physical capacity of the well or the permitted amount as limited by any conditions of approval. One acre foot is equivalent to 325,900 gallons. An ordinary home with lawn and garden irrigation diverts an average of less than one acre foot. Average in house use which does not include lawn and garden irrigation (watering) diverts 1/3 acre foot.
7. **Report the area irrigated either as acres or square feet** by filling in the correct number and checking the appropriate box. **You must describe the specific area irrigated** using either the legal description of that land or by referencing a portion of the Subdivision, Lot, Block and Filing or Unit number. **Lawn and garden watering is considered irrigation.** If the well is **not used for irrigation**, place a zero in the acres/square feet irrigated blank. One acre is equivalent to 43,560 square feet. One acre foot is equivalent to 43,560 cubic feet of water.
8. Indicate the **Well Construction and Pump Installation Contractors and their License Numbers**. If you did the work yourself, so indicate. You must submit work reports if you constructed the well and/or installed the pump yourself.

RESIDENTIAL APPLICATIONS - GENERAL INSTRUCTIONS

There are a variety of uses for ground water in Colorado. This form (GWS-44) can be used when applying for a permit for a new well or replacement of an existing well for the following types of uses:

ORDINARY HOUSEHOLD USE inside one single family residence (NO outside water use allowed)
OTHER RESIDENTIAL USE (sometimes referred to as "domestic" use) which may include use in up to three single-family residences, watering of up to one acre of home gardens and lawns, and watering of domestic animals
LIVESTOCK WATERING on a farm, ranch, range, or pasture

If you are applying for a NEW household use only well, or for a NEW 35+ acre residential well outside the Denver Basin or Designated Basins of eastern Colorado, please use simplified forms GWS-49 or GWS-50. DO NOT use this form for registration of an existing unpermitted well (Use Form GWS-12), monitoring/observation wells (Use Form GWS-46), gravel pit wells (Use Form GWS-27), or for other uses not listed above, including - commercial, industrial, crop irrigation, municipal, etcetera (Use GENERAL PURPOSE Form GWS-45).

FEES Applications must be submitted with the appropriate required non-refundable filing fees. The required filing fee for most well permit applications is \$60. The filing fees for replacement or deepening well permit applications for most previously permitted residential and livestock water wells is \$20.
Checks should be payable to the COLORADO DIVISION OF WATER RESOURCES.

Applications are evaluated in chronological order. Please allow approximately six weeks for processing.

APPLICATIONS must be completed clearly, and legibly, in BLACK INK or typed. ALL ITEMS in the application must be completed. Incomplete applications may be returned to the applicant for more information. Do not change or alter the application in any way.

THE LOCATION of the well in item 4 must be correctly and accurately described. The county, quarter/quarter, section, township, range, principal meridian, and distance from section lines must be provided.

NOTE: Distances are not necessarily the same distances as the distances from (your) property lines.

For additional assistance in describing the location of your well, review the publication entitled "How to Determine Well Location" which was provided with your packet, or can be requested from any Colorado Division of Water Resource office.

A LEGAL DESCRIPTION of your lot or parcel of land is required in item 5. For tracts of less than 35 acres approval may depend upon whether the tract was created by a division of land after June 1, 1972. If your lot is less than 35 acres in size, it would be prudent to have a deed or legal description that shows your tract was divided from a larger tract prior to June 1, 1972. This may be accomplished by obtaining a copy of a deed for the tract issued prior to June 1, 1972.

An ORIGINAL signature must be on each application. The applicant's authorized agent may sign the application, if a letter signed by the applicant is submitted with the application authorizing them to act as agent for the purpose of obtaining a well permit.

IF YOU HAVE ANY QUESTIONS regarding any item on the application form, please call the Division of Water Resources Ground Water Information Desk (303-866-3587), or the nearest Division of Water Resources Field Office located in Greeley (970-352-8712), Pueblo (719-542-3368), Alamosa (719-589-6683), Montrose (970-249-6622), Glenwood Springs (970-945-5665), Steamboat Springs (970-879-0272), or Durango (970-247-1845).
